

# **Specialist Periodical Reports**

The highly praised Chemical Society series which provides comprehensive and systematic review coverage of the major areas of research.

*Titles currently available include:*

**Photochemistry**

**Electrochemistry**

**Mass Spectrometry**

**Nuclear Magnetic Resonance**

**Spectroscopic Properties of Inorganic and Organometallic Compounds**

**Electronic Structure and Magnetism of Inorganic Compounds**

**Surface and Defect Properties of Solids**

**Inorganic Reaction Mechanisms**

**Inorganic Chemistry of the Transition Elements**

**Organophosphorus Chemistry**

**Organic Compounds of Sulphur, Selenium, and Tellurium**

**Amino-acids, Peptides, and Proteins**

**The Alkaloids**

**Terpenoids and Steroids**

**Carbohydrate Chemistry**

**Fluorocarbon and Related Chemistry**

**Foreign Compound Metabolism in Mammals**

Further information on any of these publications can be obtained from: The Marketing Officer, The Chemical Society, Burlington House, London W1V 0BN.

a place on every laboratory  
reference shelf"**

—The Times Educational Supplement

# **Hazards in the Chemical Laboratory**

Edited by G. D. MUIR

A greatly expanded follow-up to the highly successful *Laboratory Handbook of Toxic Agents* first published in 1960, *Hazards in the Chemical Laboratory* presents a comprehensive, easy reference guide to the toxic properties of chemicals and necessary first aid measures. It lists over 430 chemical hazards and is complemented by information on spillage disposal and fire fighting.

"Highly authoritative. The overall presentation is so clear and so well thought out that it should rapidly become a *vade-mecum* for every single one of the people who are responsible for the safety of personnel in chemical laboratories. A handbook that deserves the widest possible circulation in laboratories."

—*Laboratory Equipment Digest*

278pp 210 x 150 mm Paperbound £2.00

Orders for this publication should be sent, enclosing remittance, to: The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts SG6 1HN. (Members of the Chemical Society can claim a 25% reduction.)
