*Chemical Society Reviews* (ISSN 0306-0012) is published quarterly and comprises approximately 20 articles (*ca* 500 pp) per annum. Articles of three types appear (a) personalized accounts of their own contributions by recognized authorities, (b) in-depth articles covering the state of the art of the subject under review, (c) introductory reviews of new topics, suitable for non-specialist readers. The texts of the lectures given by the Society's named lecturers are also published in *Chemical Society Reviews*.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to the Managing Editor, Books and Reviews Section, The Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge CB4 4WF.

Members of the Royal Society of Chemistry may subscribe to *Chemical Society Reviews* at £23.00 per annum; they should place their orders on the Annual Subscription renewal forms in the usual way.
