

A new interdisciplinary journal for research that is emerging at the interface between chemistry and biology

15cad10120407colour

# Molecular BioSystems

New for 2005

Molecular BioSystems will publish novel and significant research and development at the interface between chemistry and the -omic sciences and systems biology. In particular, this includes:

- Cellular processes
- Proteomics and genomics
- Drug discovery
- Techniques and technologies relevant to these subject areas
- Metabolism
- Systems biology
- Biomaterials

To find out more, and to submit, visit

your new weekly

# MATERIALS RESEARCH BREAKTHROUGH!

Journal of Materials  
Chemistry is the FIRST  
WEEKLY journal in the  
field - bringing you the  
latest research, faster!

*Journal of Materials Chemistry...*  
the only place to keep up-to-date, every week!
