

In the paper by P. Sinaÿ et al. published in *Chem. Eur. J.* **2002**, 8, 240–246, an important reference to a recent work has unfortunately not been quoted: I. S. De Gracia, H. Dietrich, S. Bobo, J. L. Chiara, *J. Org. Chem.* **1998**, 63, 5883–5889. In this work, J. L. Chiara et al. developed a similar pinacolisation reaction starting from glucose and made several parallel observations en route to trehazolamine. We would like to thank Dr J. L. Chiara for having pointed to us the many coincidences between both works and are now pleased to give full credit to his contribution.

In the paper by J. L. Mascareñas et al. published in *Chem. Eur. J.* **2002**, 8, 884–899, there is a mistake in reference [18b]. It should read: N. Khiar, I. Fernández, A. Alcudia, F. Alcudia, *Adv. Sulfur. Chem.* **2000**, 2, 57–115.
