**Improving Photocurrent Generation:
Supramolecularly and Covalently
Functionalized Single-Wall Carbon
Nanotubes–Polymer/Porphyrin
Donor–Acceptor Nanohybrids**

Chem. Eur. J., **2008**, *14*

DOI: 10.1002/chem.200801018

In the Full Paper by D. M. Guldi, M. Prato et al. in *Chem. Eur. J.* **2008**, *14*, 8837–8846, one of the funding agencies was mistakenly omitted. The Cluster of Excellence “Engineering of Advanced Materials”, should have been included in the acknowledgements. The authors apologize for this oversight.
