(Received August 20, 2007; CL-070884; E-mail: keimanabe@riken.jp)

The product structure of Entries 16 and 17 in Table 2, page 1305 turned out to be incorrect. The one we obtained by the reaction of **2** with benzylmagnesium bromide was para-coupled product **A** rather than the ortho-coupled isomer. Thus, we should like to withdraw these examples from the original paper. We apologize for our wrong characterization. Structure determination will be reported in due course.
