

## **A $\beta$ -sheet peptide inhibitor of E47 dimerization and DNA binding**

Indraneel Ghosh and Jean Chmielewski

**Chemistry and Biology** 1998, Vol 5 No 8:439–445

In the results section of the abstract, the statement ‘We have synthesized several peptides corresponding to the E47 dimerization interface that inhibit E47 DNA-binding activity with IC<sub>50</sub> values in the range of 3.6–120 mM’. should read ‘We have synthesized several peptides corresponding to the E47 dimerization interface that inhibit E47 DNA-binding activity with IC<sub>50</sub> values in the range of 3.6–120  $\mu$ M’.
