

On March 1 of this year our regional editor Prof. Marina Abramovna Yurovskaya celebrates her jubilee.

Her erudition, demands, and benevolence have found respect and love toward her not only from her closest associates and colleagues in the university but also from numerous authors and readers of our journal, editors, and editorial team.

We sincerely congratulate Marina Abramovna, thank her for her inestimable contribution to our common work, and wish her sound health, happiness and joy, and new creative successes.
