Hui Wei, Bingling Li, Yan Du, Shaojun Dong,* and Erkang Wang*: Nucleobase–Metal Hybrid Materials: Preparation of Submicrometer-Scale, Spherical Colloidal Particles of Adenine–Gold(III) via a Supramolecular Hierarchical Self-Assembly Approach.

(*Chem. Mater.* **2007**, *19*, 2987).

The caption of Figure 6 was incorrect. The caption should be as follows: UV–visible spectra of the as-prepared H₂AuCl₄–adenine hybrid colloidal particles obtained at molar ratio 1:4 of adenine to H₂AuCl₄ (solid line) and H₂AuCl₄ only as control (dot line).
