

**13th Polymer Networks Group Conference
Polymer Networks 96**

2–6 September 1996, Doorn
The Netherlands

Topics:

1. Liquid crystalline polymer networks
2. Anisotropic networks

3. High-swelling networks
4. Biopolymer networks
5. Microgels: polymerization induced phase separation
6. Networks with in-situ prepared fillers
7. Thermoreversible networks
8. Gelation, critical exponents, scaling laws, modelling

Information:

Dr. K. te Nijenhuis, Laboratory of Polymer
Science and Technology, Delft University of
Technology, Julianalaan 136, 2628 BL Delft,
The Netherlands
Tel.: 31 15 2782630
Fax: 31 15 2787415
