

Contemporary Organic Synthesis

A journal of current developments in Organic Synthesis

VOLUME 2 NUMBER 1

CONTENTS

Aromatic heterocycles as intermediates in natural product synthesis 1

By Michael Shipman

Reviewing the literature published up to the end of 1993

The hydrometallation, carbometallation, and metallometallation of heteroalkynes 19

By Sharon Casson and Philip Kocienski

Reviewing the literature published up to the end of July 1994

Serotonin, sumatriptan, and the management of migraine 35

By Alexander W. Oxford

Stoichiometric organotransition metal complexes in organic synthesis 43

By Julian Blagg

Reviewing the literature published between 1 September 1993 and 31 August 1994

Cumulative Contents of Volume 2

Number 1

- 1 Aromatic heterocycles as intermediates in natural product synthesis (*up to the end of 1993*) **Michael Shipman**
- 19 The hydrometallation, carbometallation, and metallometallation of heteroalkynes (*up to August 1994*) **Sharon Casson and Philip Kocienski**
- 35 Serotonin, sumatriptan, and the management of migraine **Alexander Oxford**
- 43 Stoichiometric organotransition metal complexes in organic synthesis (*1 September 1993 to 31 August 1994*) **Julian Blagg**

Articles that will appear in forthcoming issues include

Organic halides (*1 July 1993 to 30 June 1994*) **Peter L. Spargo**

Catalytic applications of transition metals in organic synthesis (*1 September 1993 to 31 August 1994*)
Christopher G. Frost and Jonathan M. J. Williams

Hypervalent iodine in organic synthesis: α -functionalization of carbonyl compounds **O. Prakash, N. Saini, and R. M. Moriarty**

Ene-dienes **D. Grierson**

Acylation and alkylation of aromatics and heteroaromatics **H. Heaney**

Aldehydes and ketones **P. Steel**
