Contemporary Organic Synthesis

Editorial Board

Professor P. J. Kocienski, FRS (Chairman), *University of Glasgow*

Professor P. D. Bailey, *Heriot-Watt University*

Dr S. E. Gibson (née Thomas), *Imperial College of Science, Technology, and Medicine*

Professor R. F. W. Jackson, *University of Newcastle*

Professor C. J. Moody, *University of Exeter*

Professor G. Pattenden, FRS, *University of Nottingham*

Professor R. J. K. Taylor, *University of York*

International Advisory Board

Professor E. J. Corey, *Harvard University*

Professor S. Hanessian, *Université de Montréal*

Professor M. Julia, *Université de Paris XI (Paris-Sud)*

Professor P. D. Magnus, *University of Texas at Austin*

Professor G. Mehta, *University of Hyderabad*

Professor K. C. Nicolaou, *The Scripps Research Institute and University of California at San Diego, La Jolla*

Professor R. Noyori, *Nagoya University*

Professor L. E. Overman, *University of California, Irvine*

Professor L. F. Tietze, *University of Göttingen*

Contemporary Organic Synthesis is a bimonthly journal which aims to review and provide perspective in all aspects of methodology, selectivity and efficiency in contemporary synthesis. As well as covering all the principles and methods in functional group chemistry and interconversions, organometallic chemistry and asymmetric synthesis will feature prominently; so too will modern aspects of strategy and computer aided design, biotransformations and protecting group protocols. Special methods and techniques, such as sonochemistry, FVP, electroorganic synthesis and supported catalysis will be included as occasional articles, and the manner in which synthesis addresses problems and provides solutions in biology, medicine, agriculture, the environment and new materials, will also be encompassed. *Contemporary Organic Synthesis* aims to be proactive, drawing attention to new opportunities and new directions, providing timely information to the synthetic chemist who needs to keep abreast of developments in the field.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to Dr Sheila R. Buxton, Managing Editor, Organic Publications, The Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge CB4 4WF, UK.

Deputy Editor: Dr Roxane Owen. Production Editor: Nicola Coward. Technical Editor: Dr Helen Saxton.

Members of The Royal Society of Chemistry may subscribe to *Contemporary Organic Synthesis* by placing their orders on the Annual Subscription renewal forms in the usual way.

All other orders accompanied with payment should be sent directly to The Royal Society of Chemistry, The Distribution Centre, Blackhorse Road, Letchworth, Herts SG6 1HN, England. 1997 annual subscription rate: £199.00; US\$358.00. Customers in Canada will be charged the sterling price plus a surcharge to cover GST.

Contemporary Organic Synthesis is published 6 times a year in February, April, June, August, October and December. Airfreight and mailing in the USA by Mercury Airfreight International Ltd, 2323 Randolph Avenue, Avenel, New Jersey, NJ 07001, USA and at additional mailing offices. Periodicals postage is paid at Rahway, NJ. USA Postmaster: Send address changes to *Contemporary Organic Synthesis*, c/o Mercury Airfreight International Ltd, 2323 Randolph Avenue, Avenel, New Jersey 07001. All other dispatches outside the UK are by Bulk Airmail within Europe and Accelerated Surface Post outside Europe.
