SUBJECT INDEX

π -Allyl donor ligand, organometallic intramolecular-coordination compounds containing a, 259	Macromolecular systems, coordination and redox chemistry of some, 55
Carbonyl complexes, reagent and catalyst induced substitution reactions of metal, 227	Molecular mechanics calculations in coordination chemistry, 1
Carbonyl radicals and radical reactions of cobalt carbonyls, cobalt, 37	Organometallic intramolecular-coordination compounds containing a π -allyl donor ligand, 261
Catalyst induced substitution reactions of metal carbonyl complexes, reagent and, 227	Redox chemistry of some macromolecular systems, coordination and, 55
Cobalt carbonyls, cobalt carbonyl radicals and radical reactions of, 37
