### SUBJECT INDEX

---

- Amino acids, peptides and related ligands, complex formation between palladium(II) and, 97
- Chromium(V) coordination chemistry, 241
- Heterocyclic thione donors, complexes of, 115
- Light-sensitive coordination compounds and possibilities of their spectroscopic sensitization—an overview, photocatalytic systems with, 1
- Metalloporphyrin reactions, kinetics and mechanisms of, 55
- Neutral metal complexes, outer-sphere coordination of organic molecules to electrically, 185
- Outer-sphere coordination of organic molecules to electrically neutral metal complexes, 185
- Palladium(II) and amino acids, peptides and related ligands, complex formation between, 97
- Peptides and related ligands, complex formation between palladium(II) and amino acids, 97
- Photocatalytic systems with light-sensitive coordination compounds and possibilities of their spectroscopic sensitization—an overview, 1
- Thione donors, complexes of heterocyclic, 115
