SUBJECT INDEX

Alkanes: homogeneous solutions for reactive sp^3
C-H bonds, coordination chemistry with, 101

Aluminium halides: review of their structural
properties and methods of analysis, coordina-
tion compounds of, 1

Chelate rings, inorganic (carbon-free), 127

Crystallographic data, titanium organometallic
compounds: analysis and classification of, 53

Titanium organometallic compounds: analysis
and classification of crystallographic data, 53
