SUBJECT INDEX

Covalent hydration and pseudobase formation in transition metal polypyridyl complexes: reality or myth?, 209	Phenolate coordination, metalloproteins with, 73
Dioxygen activation in transition metal complexes in the light of molecular orbital calculations, 1	Pseudobase formation in transition metal polypyridyl complexes: reality or myth?, covalent hydration and, 209
Metalloproteins with phenolate coordination, 73	Rhodium(II) carboxylates, 109
Molecular orbital calculations, dioxygen activation in transition metal complexes in the light of, 1	Transition metal polypyridyl complexes: reality or myth?, covalent hydration and pseudobase formation in, 209
