

COORDINATION CHEMISTRY REVIEWS, VOL. 54 (1984)

AUTHOR INDEX

Baiocchi, C. 131	Coe, J.S. 131	Mayer, B.J. 1	Radanović, D.J. 159
Baird, D. 99	Finke, R.G. 1	McCormick, B.J. 99	
Bereman, R. 99		Mentasi, E. 131	Schiraldi, D.A. 1
Bond, A.M. 23	Martin, R.L. 23		

SUBJECT INDEX

- Ag(II) as an oxidant, mechanistic aspects of reactions involving, 131
- Aminopolycarboxylate edta-type and related ligands, optical activity of cobalt(III), chromium(III) and rhodium(III) complexes with, 159
- Carbamate complexes, monothio- and monoseleno-, 99
- Chromium(III) and rhodium(III) complexes with aminocarboxylate edta-type and related ligands, optical activity of cobalt(III), 159
- Cobalt(III), chromium(III) and rhodium(III) complexes with aminopolycarboxylate edta-type and related ligands, optical activity of, 159
- Coenzyme B₁₂-dependent diol dehydratase stereochemical and model studies: the bound radical mechanism, toward the unification of, 1
- Diol dehydratase stereochemical and model studies: the bound radical mechanism, towards the unification of coenzyme B₁₂-dependent, 1
- Dithiocarbamates, electrochemistry and redox behaviour of transition metal, 23
- Monothio- and monoseleno-carbamate complexes, 99
- Rhodium(III) complexes with aminopolycarboxylate edta-type and related ligands, optical activity of cobalt(III), chromium(III) and, 159
- Transition metal dithiocarbamates, electrochemistry and redox behaviour of, 23
