

COORDINATION CHEMISTRY REVIEWS, VOL. 61 (1985)

AUTHOR INDEX

Archer, R.D. 1	Lavallee, D.K. 55	Pettit, L.D. 97
Bezer, M. 97	Mitewa, M. 241	Raper, E.S. 115
Bontchev, P.R. 241		Rehorek, D. 1
Hennig, H. 1	Nekipelov, V.M. 185	Zamaraev, K.I. 185

SUBJECT INDEX

- | | |
|-------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Amino acids, peptides and related ligands, complex formation between palladium(II) and, 97 | Neutral metal complexes, outer-sphere coordination of organic molecules to electrically, 185 |
| Chromium(V) coordination chemistry, 241 | Outer-sphere coordination of organic molecules to electrically neutral metal complexes, 185 |
| Heterocyclic thione donors, complexes of, 115 | Palladium(II) and amino acids, peptides and related ligands, complex formation between, 97 |
| Light-sensitive coordination compounds and possibilities of their spectroscopic sensitization—an overview, photocatalytic systems with, 1 | Peptides and related ligands, complex formation between palladium(II) and amino acids, 97 |
| Metalloporphyrin reactions, kinetics and mechanisms of, 55 | Photocatalytic systems with light-sensitive coordination compounds and possibilities of their spectroscopic sensitization—an overview, 1 |
| | Thione donors, complexes of heterocyclic, 115 |
