SUBJECT INDEX

Chatt

Interview of Joseph Chatt 1

Cytochromes P-450

Metalloporphyrins as models for the cytochromes P-450 115

Hemilabile oxygen-phosphorus ligands

Coordination chemistry and catalysis with hemilabile oxygen-phosphorus ligands 27

Metalloporphyrins

Metalloporphyrins as models for the cytochromes P-450 115

Oxygen-phosphorus ligands

Coordination chemistry and catalysis with hemilabile oxygen-phosphorus ligands 27

Transition metal compounds

Theoretical approaches to the description of the electronic structure and chemical reactivity of transition metal compounds 163
