

## COORDINATION CHEMISTRY REVIEWS, VOL. 160 (1997)

### AUTHOR INDEX

---

Bharadwaj, P.K., 191	Makáňová, J., 161	Šima, J., 161
Cargill Thompson, A.M.W., 1	Mandal, S., 191	Singh, R., 191
Cotton, S.A., 93	Richmond, M.G., 237	Tran-Thi, T.-H., 53
Das, G., 191	Shukla, R., 191	Ungváry, F., 129

### SUBJECT INDEX

- 
- Excited state
    - Photochemistry of iron(III) complexes 161
  - Excited state optical properties
    - Assemblies of phthalocyanines with porphyrins and porphyrazines: ground and excited state optical properties 53
  - Germylformylation
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Ground state optical properties
    - Assemblies of phthalocyanines with porphyrins and porphyrazines: ground and excited state optical properties 53
    - Aspects of the lanthanide–carbon  $\sigma$ -bond 93
  - Homologation
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Hydroformylation
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Iron(III) complexes
    - Photochemistry of iron(III) complexes 161
  - Lanthanide–carbon  $\sigma$ -bond
    - Aspects of the lanthanide–carbon  $\sigma$ -bond 93
  - Optical properties
    - Assemblies of phthalocyanines with porphyrins and porphyrazines: ground and excited state optical properties 53
  - Organometallic metal cluster compounds
    - Annual survey of organometallic metal cluster chemistry for the year 1995 237
  - Photochemistry
    - Photochemistry of iron(III) complexes 161
  - Phthalocyanines
    - Assemblies of phthalocyanines with porphyrins and porphyrazines: ground and excited state optical properties 53
  - Porphyrins
    - Assemblies of phthalocyanines with porphyrins and porphyrazines: ground and excited state optical properties 53
  - Reduction of carbon dioxide
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Reduction of carbon monoxide
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Sigma-bonded organolanthanides
  - Silylformylation
    - Application of transition metals in hydroformylation. Annual survey covering the year 1995 129
  - Supramolecular coordination oligomers
    - The synthesis of 2,2':6',2''-terpyridine ligands — versatile building blocks for supramolecular chemistry 1
