SUBJECT INDEX

- |   |   |
|---|---|
| Anionic chelate ligands   | Ligand field effects  |
| Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17 | Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91 |
| Carbonylation   | Metallacycles   |
| Transition metals in organic synthesis, highlights for the year 1997 159  | Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17                     |
| Clusters  | Metal–oxygen bond   |
| Ruthenium cluster–[2.2]paracyclophane complexes 59  | Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91 |
| Dinuclear compounds   | Nucleophilic additions  |
| Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43           | Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17                     |
| Formamidinate   | Organic synthesis   |
| Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43           | Transition metals in organic synthesis, highlights for the year 1997 159  |
| LFER  |   |
| Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43           |   |

## Organometallic metal cluster compound

Annual survey of organometallic metal cluster chemistry for the year 1997 271

## Oxidic solids

Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91

## [2.2]Paracyclophane

Ruthenium cluster–[2.2]paracyclophane complexes 59

## Pseudohalides

Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17

## Pyrazole type ligands

Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17

## Reaction mechanisms

Annual survey of organometallic metal cluster chemistry for the year 1997 271

## Ruthenium

Ruthenium cluster–[2.2]paracyclophane complexes 59

## Structural characterization

Annual survey of organometallic metal cluster chemistry for the year 1997 271

## Substituent effects

Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43

## Transition metals

Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17

Transition metals in organic synthesis, highlights for the year 1997 159
