LETTER FROM THE EDITOR

This is the last issue of Volume 26 and the close of another year. In the pipeline for Volume 27 are articles on the complex chemistry and analytical chemistry of flames, a theme issue on NIR, and more. And important book reviews as well. I would like to invite our readers once again to submit ideas for papers they would like to see. Topics or authors or both are welcome suggestions. In fact, this issue of the Journal has two, shorter, "perspective" articles than the normal, lengthy review. We will publish such articles from time to time and will consider articles of that kind whenever submitted. If you would like to discuss plans for either a long or a short article before beginning, please contact the Editor-in-Chief by e-mail at clochmul@chem.duke.edu.

We are still planning full implementation of electronic publishing for *CRAC* and plan to add some more communications features perhaps even a news group format to the Website. The known addresses and updated e-mail addresses for the Editorial Board can be found as always at <http://www.crcpress.com/jour/crac/crac.htm>.

Thanks for yet another good year and for the suggestions from near and far. My personal thanks to the Editorial Board members who have been so active in reviewing and recruiting papers for consideration.

Prof. C. H. Lochmüller
Editor-in-Chief, CRAC
