

Addendum

The PubMed citation of “Versatility of the endoplasmic reticulum protein folding factory” by Eelco van Anken and Ineke Braakman contains the following errors: 1. The lead author’s name is incomplete; the full surname is *van Anken*, as listed above; 2. PubMed lists Elizabeth Craig as an author; she is, in fact, the editor of the review. To prevent a similar error from occurring, *Critical Reviews in Biochemistry and Molecular Biology* will now identify the editor of each review on the last line of its reference section.
