

BRITISH PHARMACEUTICAL TECHNOLOGY CONFERENCE

20-22 April 1982

The London Tara Hotel, Kensington, London W8 5SR

ANNOUNCEMENT AND CALL FOR PAPERS

The third British Pharmaceutical Technology Conference is to take place in London in April 1982. A large number of original research and general industrial pharmaceutical papers will be presented at the Conference. The aim will be to review all modern aspects of pharmaceutical technology, including contemporary trends in dosage form design and solid dosage technology. Powder technology, bioavailability, pharmacokinetics, good manufacturing practice and drug stability will also be included. In addition to a full social programme, a number of plenary lectures by acknowledged international experts will also be delivered.

OFFERS OF PAPERS AND/OR SHORT COMMUNICATIONS

Offers of papers are invited for presentation at this Conference. Manuscripts should be in the broad area of pharmaceutical technology and may deal with original research work or be of a general industrial pharmaceutical nature.

Manuscripts will be accepted for:—

- (a) **Presentation only at the Conference**

OR

- (b) **Presentation at the Conference with consideration for publication in DRUG DEVELOPMENT & INDUSTRIAL PHARMACY (immediately after the Conference).**

All articles should include the title, the full name of the author(s) and the name of the research laboratory or institution. Authors should also state under what category (a) or (b) they wish their manuscripts to be considered.

CLOSING DATE

The closing date for summaries is November 1st 1981; final drafts by February 1st 1982.

ENQUIRIES

All enquiries and submissions should be sent to:—
