

EDITORIAL

This issue of Drug Development and Industrial Pharmacy is devoted to the INTERPHEX USA '87 Conference which was held in New York City in April as a companion to the INTERPHEX Exhibition.

As in previous years the range of equipment on display at the futuristic Jacob K. Javits Conference Center was most impressive. The conference papers, some of which are published in this issue, focused attention on many timely issues concerning the research, development, production, quality control and regulatory approval of pharmaceuticals.

Arrangements are already in hand for the INTERPHEX USA '88 Conference to be held at the Jacob K. Javits Center July 18-21, 1988. A Call for Papers has recently been mailed to attendees at previous INTERPHEX Conferences.

Anyone needing further information about the INTERPHEX USA '88 Conference should contact
