

BOOK REVIEW

PHARMACEUTICAL MANUFACTURERS OF THE UNITED STATES (Fourth Edition)

Edited by D. J. Renzo

Published by Noyes Publications, hardcover 300 pages, \$72.

This is a fascinating book and one likely to be a valuable reference text for anyone connected with the pharmaceutical industry. From AAA Pharmaceutical Inc. to Zenith Laboratories, Inc. the editor has attempted to provide.

Company Name,  
Address (with Zip code)  
Telephone (with area code)  
Parent Company  
Product Category  
Annual Sales (latest available figures)  
Number of employees  
Executive Names and Titles  
Plant locations  
Types of product and selected brand names  
Domestic Division, Subsidiaries and affiliates

Although there is some variation in the amount of data provided for the different companies in general the Editor is to be congratulated on having produced a surprisingly comprehensive collection of data.
