

BOOK REVIEW

Pharmaceutical Dosage Forms: Parenteral Medications Volume 3

Second edition, revised and expanded

Edited by: Avis, Lieberman and Lachman

Published (1993) by:

Marcel Dekker, Inc.

270 Madison Avenue

New York, NY 10016

Price \$150.00, 584 pages, hard cover

This book is an essential resource for all concerned in sterile products. The list of chapter authors contains the names of many of those widely regarded as international experts in this area; Agalico, Avis, DeLuca, Fry, Lachman, Lieberman, Loftus, and Tetzlaff. The coverage of the topics included in this volume is generally surprisingly detailed and specific in nature. Together with its companion volumes this publication will be widely consulted for many years.
