

# Corrigendum: Modern agrochemical research: a missed opportunity for drug discovery?

*Drug Discovery Today* 11 (2006) 839–845

After finalization of the review process, the authors of this article noticed inaccuracies in Figure 1 regarding the structures

of lambda-cyhalothrin, trifloxystrobin and thiamethoxam. A corrected version of Figure 1 is published here.

**FIGURE 1**

A selection of modern, commercially important agrochemicals [9]. Insecticides are coloured blue, fungicides are red and herbicides are green. The products' names and launch dates are included.
