

DRUG METABOLISM AND DRUG INTERACTIONS

VOLUME 9, No. 3-4, 1991

CONTENTS

	Page
Introduction	175
The Role of Peroxidases in the Activation of Chemical Carcinogens <i>M. Stiborová, E. Frei, H.H. Schmeiser and P. Anzenbacher</i>	177
QSAR Approach to Estimation of the Distribution of Xenobiotics and the Target Organ in the Body <i>M. Tichý</i>	191
The FAD-Containing Monooxygenase-Catalyzed N-Oxidation and Demethylation of Trimethylamine in Rat Liver Microsomes <i>I. Gut and A.H. Conney</i>	201
Interactions of Organic Hydroperoxides with Heme Proteins <i>L. Židek, M. Machala and L. Skurský</i>	209
Elimination of Benfluron and its Metabolites in the Faeces and Urine of Rats <i>M. Nobilis, E. Kvasnicková, A. Šroler and I.M. Hais</i>	225
Interaction of Alfatoxin B ₁ with the Rat Monooxygenase System and Relationships to its Acute Toxic Effect <i>F. Hubálek</i>	241

cont.

Interaction of Z-4,4-Bis(4-Ethylphenyl)-2,3-Dibromo-2-Butenoic Acid with Amino-Transferases: Changes in Absorption and Circular Dichroism Spectra <i>J. Dršata, I.M. Hais and P. Maloň</i>	255
Liposomes - Model Membranes to Study the Binding of Tricyclic Antidepressants <i>Z. Fišar, R. Krulík and D. Beitlová</i>	269
Methylated and Demethylated Tricyclic Antidepressants and Their Binding to Cell Membranes <i>R. Krulík, J. Sikora, P. Bureš and K. Fuksová</i>	283
Changes of Ligand Binding After Membrane Phosphorylation <i>R. Krulík, P. Bureš, D. Šimůnková and M. Havránek</i>	293
Influence of 5-[2-(N,N-Dimethylamino)Ethoxy]-7-Oxo-7H-Benzo-(c)Fluorene Hydrochloride (Benflurone) on the Activity of Rat Liver Aspartate and Alanine Aminotransferases <i>M. Netopilová, J. Veselá and J. Dršata</i>	301
Plasma Xanthine Oxidase and Resistance to Hypoxia: Effect of Purines and Alcohol Administration <i>L. Novák, S. Štěpek, T. Zima and S. Trojan</i>	311
Acid-Base Balance Disturbances Following Toxic Doses of Local Anesthetics <i>P. Holub, P. Švec and J. Seginko</i>	321
Relationships Between the Chemical Structure and Cytotoxicity of 4-Alkylmorpholine N-Oxides <i>M. Miko and F. Devínský</i>	333
<i>Pseudomonas aeruginosa</i> Toxins: Effect on Ehrlich Carcinoma and Vero Cells <i>in vitro</i> <i>V. Majtan, M. Miko and A. Hostacka</i>	353
