Two errors were found in the paper:

- 1) Table 4, column 2 for Dye 1 should show “Calc.<sup>b</sup>” as the heading.
- 2) In the paragraph before section 3.2, the dye 6 space group should be P-1. The reference [42] incorrectly shows PT, but we checked the cif files and found P-1.

The sentence should then read: “ortho-Cyano-substituted dye 6 gave crystals characterized by a P-1 space group, head-to-tail dimers forming a column structure in the unit cell, and w3.5 Å spacings between molecules and dimers [42].”
