

ANNOUNCEMENT

The Wilhelm Feuerlein Research Prize for Work on Alcohol and Medication Dependency

The Klinische Betriebsgesellschaft Oberberg, the operating company managing the Oberberg clinics in Hornberg, and Extertal/Laßbruch, Germany, has marked its 10th anniversary by founding the Wilhelm Feuerlein Research Prize for work on alcohol and medication dependency.

Work in fields such as psychiatry, neurology, psychology, biochemistry, neurobiology, psychotherapy and pharmacology may be submitted. The competition is open to physicians, psychologists and research groups worldwide.

To be eligible, work must have appeared within the past year or be still unpublished. There should be particular emphasis on new findings on the origin and treatment of dependency.

Six copies (offprints) of each piece of work should be submitted in order to facilitate processing.

The prize is endowed with DM 10,000, will be awarded every 2 years and will be presented by the president of the Deutsche Gesellschaft für Psychiatrie, Psychotherapie und Nervenheilkunde (German Society for Psychiatry, Psychotherapy and Neurology) at its annual meeting.

The winner of the prize will be selected by an independent board of trustees. The prize may be shared between no more than two candidates. Unsuccessful candidates have no recourse to law.

Deadline for submissions: 15 March 1998

Work for consideration should be sent to:
