

When we published the article Yasutake, C et al. (2006) “Serum BDNF, TNF- $\alpha$  and IL-1 $\beta$  levels in dementia patients. Comparison between Alzheimer’s disease and vascular dementia.” Eur Arch Psychiatry Clin Neurosci (2006) 256:402–406 online - The online version of the original article can be found at <http://dx.doi.org/10.1007/s00406-006-0652-8> - three mistakes have been overlooked:

- on p. 403 (online first version p. 2) in Table 1, column 1: “TNF- $\alpha$  (ng/ml)” must read “TNF- $\alpha$  (pg/ml)”.
- on p. 403 (online first version p. 2) in Table 1, column 1: “IL-1 $\beta$  (ng/ml)” must read “IL-1 $\beta$  (pg/ml)”.
- on p. 404 (online first version p. 3), right column, 4<sup>th</sup> paragraph: “In VaD patients, the serum BDNF levels correlated negatively” must read “positively”.

The publisher apologises for any inconvenience caused by this mistake.
