ABSTRACTS

Oral presentations

531	Plenary Lectures
533	Proton Pumping Systems
535	Functional Cell Imaging
537	Modelling Complex Systems
539	Protein Reactivity and Dynamics
541	From DNA to Chromatin
543	Channels and Receptors
545	Redox Enzyme Mechanisms
547	Single Molecule Biophysics
549	Sensing with Ion Channels
551	Muscle Biophysics
553	Membrane Microdomains
555	Morphogenesis: from cell adhesion to organs
557	Exhibitors Symposium
558	Functional Complexes
560	Modelling Molecules
562	Biophysics and Disease
564	J.-M. Lhoste's Symposium
566	Molecular Crowding
568	Protein Folding
570	Regulation of Membrane Transport
572	Light Driven Systems
574	Imaging Organisms
576	Teaching Biophysics
577	Drug Design and Delivery
579	Rotors and Motors
581	The RNA World

Posters

583	Proton Pumping Systems
586	Functional Cell Imaging
596	Modelling Complex Systems
607	Protein Reactivity and Dynamics
631	From DNA to Chromatin

641	Channels and Receptors
658	Redox Enzyme Mechanisms
667	Single Molecule Biophysics
684	Sensing with Ion Channels
686	Muscle Biophysics
690	Membrane Microdomains
712	Morphogenesis: from cell adhesion to organs
718	Exhibitors Symposium
719	Functional Complexes
732	Modelling Molecules
749	Biophysics and Disease
780	Molecular Crowding
783	Protein Folding
799	Regulation of Membrane Transport
810	Light Driven Systems
816	Imaging Organisms
819	Teaching Biophysics
821	Drug Design and Delivery
832	Rotors and Motors
835	The RNA World
