

Acknowledgements

ESO is grateful to the City of Lugano for their interest and continuous support in the organisation of ECCLU, to ESMO for their co-operation and support of travel grants.

ESO is furthermore grateful to the International Conference on Malignant Lymphoma and to the International Extranodal Lymphoma Study Group for their commitment and devotion in defining the high-level programme, whilst it wishes to express its deep appreciation for all faculty members for their valuable contribution and co-operation.

CME accreditation and certificates

All participants will be issued a certificate of attendance at the close of the Convention. ECCLU has been appraised and approved by the Accreditation Council of Oncology in Europe (ACOE) acknowledging the quality of the scientific programme and its educational value.

ACOE is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS). The “Educational Cancer Convention Lugano – ECCLU: What is new in haemato-oncology?” is designated for a maximum of **10 hours of European external CME credits**. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. EACCME credits are recognised by the American Medical Association towards the Physician’s Recognition Award (PRA). To convert EACCME credit to AMA PRA category 1 credit, the participant should contact the AMA.

The programme is furthermore accredited with **11 ESMO-MORA category 1 points**.

Abstracts

This book includes abstracts submitted by the invited speakers and those proposed by the participants that were accepted for presentation or publication.

Abstracts on basic research, clinical study or a clinical case in haemato-oncology were received within the following categories:

- Extranodal lymphomas
- Leukaemias
- Lymphomas and myeloma

Abstracts on basic research or clinical studies were considered for poster presentation or publication only.

Abstracts on clinical cases were considered for clinical case discussion, poster presentation or publication only.
