Human Cancer

M. H. Moar, R. Ber, G. Klein, A. Westman and I. Eriksson: Somatic cell hybrids between human lymphoma cell lines. V. IdUrd indicibility and P3HR-1 superinfectability of Daudi/HeLa (DAD) and Daudi/P3HR-1 (DIP-1) cell lines.

C. Marigo, P. Correa and W. Haenszel: Cancer and "cancer related" colorectal lesions in São Paulo, Brazil.

G. A. Nagel, E. Nagel-Studer, W. Seiler and H. O. Hofer: Malignant lymphoma in four of five siblings.

J. A. Peterson, G. C. Buehring, J. Taylor-Papadimitriou and R. L. Ceriani: Expression of human mammary epithelial (HME) antigens in primary cultures of normal and abnormal breast tissue.

D. J. Moss, A. B. Rickinson and J. H. Pope: Long-term T cell-mediated immunity to Epstein-Barr virus in man. I. Complete regression of virus-induced transformation in cultures of seropositive donor leukocytes.

E. Paluch and H. L. Ioachim: Reactive antibodies in the bronchial washings of lung cancer patients.

H. G. Kwa, R. D. Bulbrook, F. Cleton, A. A. Verstraeten, J. L. Hayward and D. Y. Wang: An abnormal early evening peak of plasma prolactin in nulliparous and obese post-menopausal women.

A. Tarquini, L. di Martino, A. Mallocci, H. G. Kwa, A. A. van der Gugten, R. D. Bulbrook and D. Y. Wang: Abnormalities in evening plasma prolactin levels in nulliparous women with benign or malignant breast disease.

F. Vánky, E. Klein, J. Stjernswärd, L. Rodriguez, A. Péterffy, L. Steiner and U. Nilsson: Human tumor-lymphocyte interaction *in vitro*. III. T lymphocytes in autologous tumor stimulation (ATS).

R. Billing, B. Clark, K. Guidera and J. Minowada: Heteroantiserum against acute lymphocytic leukemia raised to the lymphoblastoid cell line NALM-1.

A. W. Lees, P. E. Burns and M. Grace: Oral contraceptives and breast disease in premenopausal Northern Albertan women.

P. Seth, S. S. Prakash and D. Ghosh: Antibodies to Herpes simplex virus types 1 and 2 in patients with squamous-cell carcinoma of uterine cervix in India.

Experimental Cancer

R. C. Brown, M. Chamberlain, D. M. Griffiths and V. Timbrell: The effect of fibre size on the *in vitro* biological activity of three types of amphibole asbestos.

M. Wu, G. K. Arimura and A. A. Yunis: Mechanism of sensitivity of cultured pancreatic carcinoma to asparaginase.

J. M. Krakower, S. R. Tronick, R. E. Gallagher, R. C. Gallo and S. A. Aaronson: Antigenic characterization of a new gibbon ape leukemia virus isolate: seroepidemiologic assessment of an outbreak of gibbon leukemia.

A. Mantovani: Effects on *in vitro* tumor growth of murine macrophages isolated from sarcoma lines differing in immunogenicity and metastasizing capacity.

L. O. Arthur and D. L. Fine: Naturally occurring humoral immunity to murine mammary tumor virus (MuMTV) and MuMTV GP52 in mice with low mammary tumor incidence.

T. Matsuo, N. Hibi, S. Nishi, H. Hirai and T. Osato: Studies on Epstein-Barr virus-related antigens. III. Purification of the virus-determined nuclear antigen (EBNA) from non-producer Raji cells.

British Journal of Cancer

December 1978

G. A. Currie and C. Basham: Differential arginine dependence and the selective cytotoxic effects of activated macrophages for malignant cells *in vitro*.

- M. Lopez *et al.*: The natural history of antitumour immunity in human breast cancer assayed by tube leukocyte adherence inhibition.
- R. O'Connor *et al.*: A study of the false positive and negative responses in the tube leukocyte adherence inhibition assay (tube LAI).
- P. Burtin *et al.*: Reactivity of leukocytes of patients with colorectal cancer in leukocyte migration inhibition test, Clinicopathological correlations.
- M. Lau Laursen: Immunofluorescence studies of the serological response to intracaecal injections of antigenic mouse tumour cells.
- M. V. Pimm and R. W. Baldwin: BCG treatment of human tumour xenografts in athymic mice.
- S. Bjornsson and H. Preisler: The effects of *Corynebacterium parvum* on murine myeloid leukaemia.
- P. Workman *et al.*: Monitoring of salivary misonidazole concentration in man: a possible alternative to plasma monitoring.
- B. L. HILLCOAT *et al.*: Clinical response and plasma levels of 5-fluorouracil in patients with colonic cancer treated by drug infusion.
- J. H. Peacock and T. C. Stephens: The influence of anaesthetics on tumour cell kill and repopulation in B16 melanoma treated with L-phenylalanine mustard (melphalan).
- P. Ebbesen and L. Olsson: Specificity of the DNA synthesis inhibitory effect of extracts from cloned normal, revertant and sarcoma virus transformed 3T3 cells.
- G. O. Brønstad *et al.*: Effect of prostaglandins and hormones on cyclic-AMP formation in rat hepatomas and liver tissue.
- P. V. Maynard *et al.*: The relationship between oestrogen receptor content and histological grade in human primary breast tumours.
- I. Taylor, R. Bennett and S. Sherriff: The blood supply of colorectal liver metastases.
- S. J. Peacock: The size of cancer clinical trials and stopping rules.
