

Recent Journal Contents (1979)

International Journal of Cancer

April, 1979

Human Cancer

- A. J. Tuyns, G. Péquignot and J. S. Abbatucci: Oesophageal cancer and alcohol consumption importance of type of beverage.
- K. Ebeling and S. Tanneberger: Characterization of normal cervical epithelium, intraepithelial neoplasias and cervical carcinomas *in vitro* by quantitative studies on nuclear overlap behaviour.
- J. Lindgren, T. Wahlström and M. Seppälä: Tissue CEA in premalignant epithelial lesions and epidermoid carcinoma of the uterine cervix: prognostic significance.
- O. M. Jensen: Cancer morbidity and causes of death among Danish brewery workers.
- W. P. van Beek, K. Nilsson, G. Klein and P. Emmelot: Cell surface glycoprotein changes in Epstein-Barr virus positive and negative human haematopoietic cell lines.
- M. Reynès, V. Paczynski, M. Galtier and J. Diebold: Ultrastructural and immunocytochemical localization of immunoglobulin synthesis in tumor cells in Hodgkin's disease.
- O. Klepp and K. Magnus: Some environmental and bodily characteristics of melanoma patients. A case-control study.
- G. Taylor, S. Kumar, P. Brenchley, P. Wilson, B. Costello and G. H. Shaw: Immunosurveillance in pre-malignant occupational bladder disease.
- S. D. Smith and D. Rosen: Establishment and characterization of a human null-cell lymphoblastic lymphoma cell line (K-LL-3).

Experimental Cancer

- F. Wiener, J. Spira, S. Ohno, N. Haran-Ghera and G. Klein: Non-random duplication of chromosome 15 in murine T-cell leukemias induced in mice heterozygous for translocation T(14:15)6.
- H. Ikeda and T. Odaka: Expression of Fv-4⁴ allele in hematopoietic cells from G mice resistant to Friend leukemia virus.
- L. B. Wolosin and A. H. Greenberg: Murine natural anti-tumor antibodies. I, Rapid *in vivo* binding of natural antibody by tumor cells in syngeneic mice.
- A. Karande, E. Yefenof, E. M. Fenyö and G. Klein: Moloney lymphoma cells express a polypeptide containing the *gag* gene-coded p15 and the Moloney leukemia virus-induced cell surface antigen (MCSA).
- S. Gundersen and Q. Fodstad: Treatment of micrometastases from Lewis lung carcinoma with abrin and cyclophosphamide, given singly and in combination.
- O. Kobori and K. Oota: Origin of cells with neuroendocrine differentiation in serially passaged rat stomach cancers.
- Y. Y. Fong, J. H. C. Ho and D. P. Huang: Preserved foods as possible cancer hazards: WA rats fed salted fish have mutagenic urine.
- M. Rieber, M. Rieber and M. Alonso: Antiserum to murine leukemia virus recognizes novel cell surface molecules associated with growth control and transformation.
- I. Hellström, K. E. Hellström, L. Zeidman, I. D. Bernstein and J. P. Brown: Cell-mediated reactivity to antigens shared by Moloney virus induced lymphoma cells (LSTRA) and cells from certain 3-methylcholanthrene induced mouse sarcomas.
- B. Lombardi and H. Shinozuka: Enhancement of 2-acetylaminofluorene liver carcinogenesis in rats fed a choline-devoid diet.
- G. I. Deichman, T. E. Kluchareva, L. M. Kashkina and V. A. Matveeva: Reproducibility and relation to specific and nonspecific antitumor resistance of the tumor "sneaking through" phenomenon.
