

Recent Journal Contents (1980)

British Journal of Cancer

January 1980

J. Denekamp, D. G. Hirst, F. A. Stewart and N. H. A. Terry: Tumour radiosensitization by misonidazole: a general phenomenon?

J. Overgaard: Effect of misonidazole and hyperthermia on the radiosensitivity of a C3H mouse mammary carcinoma and its surrounding normal tissue.

S. K. Calderwood and J. A. Dickson: Influence of tumour volume and cell kinetics on the response of the solid Yoshida sarcoma to hyperthermia (42°C).

N. G. Testa, T. M. Dexter, D. Scott and N. M. Teich: Malignant myelomonocytic cells after *in vitro* infection of marrow cells with Friend leukaemia virus.

J. S. Senn, C. C. Lai and G. B. Price: Levamisole: evidence for activity on human haemopoietic progenitor cells.

P. J. M. Tutton and D. H. Barkla: Influence of prostaglandin analogues on epithelial cell proliferation and xenograft growth.

P. J. Selby, J. M. Thomas, P. Monaghan, J. Sloane and M. J. Peckham: Human tumour xenografts established and serially transplanted in mice immunologically deprived by thymectomy. Cytosine arabinoside and whole-body irradiation.

O. Eremin, D. Plumb, P. Roberts and J. P. Stephens: Human regional tumour lymph nodes: alterations of micro-architecture and lymphocyte subpopulations.

P. Balding, P. A. Light and A. W. Preece: Response of human lymphocytes to PHA and tumour-associated antigens as detected by fluorescence polarization.

D. M. P. Thomson, D. N. Tataryn, R. Schwartz and P. Friedlander: Partial purification of organ-specific neoantigens from human colon and breast cancer by affinity chromatography with human breast tumour-specific γ -globulin.

F. Cülo, J. M. Yuhas and A. J. Ladman: Multicellular tumourspheroids: a model for combined *in vivo/in vitro* assay of tumour immunity.

S. Rasmussen, E. Bock, K. Warecka and G. Althage: Quantitation of the glial fibrillary acidic protein in human brain tumours.

H. D. Hilgard, P. Hilgard, A. McCraw and J. E. Castro: Mechanisms of *C. parvum* induced coagulopathy in mice.

K. Li, D. P. Chandra, T. Pewnim, T. Foo and J. B. Adams: Effect of hormone manipulation on oxidation, reduction and sulphurylation of dehydroepiandrosterone and oestrone in DMBA-induced rat mammary tumours.

Short Communications

P. Rohan and M. A. Wainberg: Effect of prior inoculation with chemical carcinogens on development of avian retrovirus-induced neoplasia in chickens.

I. M. Holdaway, K. G. Mountjoy, V. J. Harvey, E. P. Allen and E. J. Stephens: Clinical applications of receptor measurements in breast cancer.

M. R. Z. Talha, H. J. Rogers and J. R. Trounce: Distribution and pharmacokinetics of cyclophosphamide in the rat.
