

# Recent Journals Contents (1980)

---

*International Journal of Cancer*

February 1980

## *Human Cancer*

O. Jänne, A. Kauppila, P. Syrjäla and R. Vihko: Comparison of cytosol estrogen and progesterin receptor status in malignant and benign tumors and tumor-like lesions of human ovary.

A. Martin-Achard, A.-Cl. Diserens, N. de Tribolet and S. Carrel: Evaluation of the humoral response of glioma patients to a possible common tumor-associated antigen(s).

S. J. Collins, A. Bodner, R. Ting and R. C. Gallo: Induction of morphological and functional differentiation of human promyelytic leukemia cells (HL-60) by compounds which induce differentiation of murine leukemic cells.

A. Yaniv, T. Gotlieb-Stematsky, A. Vonsover and K. Perk: Evidence for type C retrovirus production by Burkitt's lymphoma derived cell line.

J. Siemiatacki, G. Brubaker and A. Geser: Space-time clustering of Burkitt's lymphoma in East Africa: Analysis of recent data and a new look at old data.

P. Hersey, A. Edwards and W. H. McCarthy: Tumour related changes in natural killer cell activity in melanoma patients. Influence of stage of disease, tumour thickness and age of patient.

A. Blain and H. M. Hayes, Jr.: Cancer and other causes of death among U.S. veterinarians, 1966-1977.

## *Experimental Cancer*

D. Metcalf: Clonal extinction of myelomonocytic leukemic cells by serum from mice injected with endotoxin.

V. J. Feron, P. D. van den Heuvel, H. B. W. M. Koeter and R. B. Beems: Significance of particle size of benzo(a)pyrene for the induction of respiratory tract tumours in hamsters.

H. Autrup, F. C. Wefald, A. M. Jeffrey, H. Tate, R. D. Schartz, B. F. Trump and C. C. Harris: Metabolism of benzo(a)pyrene by cultured tracheobronchial tissues from mice, rats, hamsters, bovine and humans.

A. Hakim: Correlation between perchloric and soluble serum proteins, cellular immunity and tumor cell burden.

W. Roszkowski, J. K. Wrembel, K. Roszkowski, M. Janiak and S. Szmigielski: Does whole-body hyperthermia therapy involve participation of the immune system?

P. B. Blair and M.-A. Lane: Age and tumor correlated changes in functional antibody responses to MTV in neonatally infected mice.

J. Abb and F. Deinhardt: Retinoids inhibit the mitogenic activity of tumor promoting phorbol esters on human lymphocytes.

D. A. Chow and A. H. Greenberg: The generation of tumor heterogeneity *in vivo*.

L. W. Law: Changes in tumor-specific antigen expression during passage *in vitro* and *in vivo* of newly derived methylcholanthrene-induced sarcomas of BALB/c mice.

C.-C. Ting and D. Rodrigues: Evaluation of the immunocompetence of macrophages and the generation of T cell-mediated cytotoxic response against allogeneic tumor cells in tumor bearers.

S. Pfeifer, A. Kallio, A. Vaheri, R. Pettersson and N. Oker-Blom: Stable bone marrow-derived cell line producing transforming avian acute leukemia virus OK 10.
