International Journal of Cancer

December 1980

Human Cancer

- C. D. J. Holman, I. R. James, P. H. Gattey and B. K. Armstrong: An analysis of trends in mortality from malignant melanoma of the skin in Australia.
- R. L. Yarrish, B. G. Werner and B. S. Blumberg: Association of hepatitis B virus infection with hepatocellular carcinoma in American patients.
- K. M. Tveit, Ø. Fodstad, S. Olsnes and A. Pihl: *In vitro* sensitivity of human melanoma xenografts to cytotoxic drugs. Correlation with *in vivo* chemosensitivity.
- M. Schaadt, V. Diehl, H. Stein, C. Fonatsch and H. H. Kirchner: Two neoplastic cell lines with unique features derived from Hodgkin's disease.
- N. Cascinelli, A. Morabito, R. Bufalino, E. P. van der Esch, F. Preda, M. Vaglini, D. Rovini and S. Orefice: Prognosis of stage I melanoma of the skin.
- P. H. Levine, R. R. Connelly and J. M. Easton: Demographic patterns for nasopharyngeal carcinoma in the United States.
- C. Fonatsch, M. Schaadt, H. Kirchner and V. Diehl: A possible correlation between the degree of karyotype aberrations and the rate of sister chromatid exchanges in lymphoma lines.
- M. Jain, G. M. Cook, F. G. Davis, M. G. Grace, G. R. Howe and A. B. Miller: A case-control study of diet and colo-rectal cancer.
- G. P. Hemstreet, III, J. L. Wittliff, A. M. Sarraf, M. L. Hall, III, L. J. McRae and J. R. Durant: Comparison of steroid receptor levels in renal cell carcinoma and autologous normal kidney.

Experimental Cancer

- M. Allouche, H. G. Delbrück, B. Klein, R. Masse, A. Matar, M. Morin, J. Lafuma and C. Jasmin: Malignant bone tumours induced by a local injection of colloidal radioactive ¹⁴⁴cerium in rats as a model for human osteosarcomas.
- I. Hellström, S. Settle, W. H. Chapman and K. E. Hellström: Monoclonal antibody to an antigen, p75, shared by carcinomas of the mouse urinary bladder.
- J. Zákány, G. Chihara and J. Facht: Effect of lentinan on the production of migration inhibitory factor induced by syngeneic tumor in mice.
- K. Kärre, G. O. Klein, R. Kiessling, G. Klein and J. C. Roder: *In vitro* NK-activity and *in vivo* resistance to leukemia: Studies of beige, beige/nude and wild type hosts on C57B1 background.
- D. E. Axelrod, S. K. Majumdar, J. A. Wivell and R. W. Terry: Tumorigenicity of Friend murine erythroleukemia cell lines differing in spontaneous differentiation rates.
- G. E. Milo and J. A. DiPaolo: Presensitization of human cells with extrinsic signals to induced chemical carcinogenesis.
- N. K. Day, G. Fernandes, S. S. Witkin, E. S. Thomas, N. H. Sarkar and R. A. Good: The effect of diet on autogenous immunity to mouse mammary tumor virus in C3H/Bi mice.
- A. Bonmassar, C. Riccardi, P. Rivosecchi-Merletti, A. Goldin and E. Bonmassar: Transplantation resistance of drug-treated hybrid or allogeneic mice against murine lymphomas. I. Immunopharmacology studies.

R. Evans and E. M. Lawler: Macrophage content and immunogenicity of C57BL/6J and BALB/cByJ methylcholanthrene-induced sarcomas.

A. Santoni, C. Riccardi, T. Barlozzari and R. B. Herberman: Suppression of activity of mouse natural killer (NK) cells by activated macrophages from mice treated with pyran copolymer.

International Journal of Cancer

January 1981

Human Cancer

D. Trichopoulos, A. Kalandidi, L. Sparros and B. MacMahon: Lung cancer and passive smoking.

F. C. Giuliani, K. A. Zirvi, N. O. Kaplan and A. Goldin: Chemotherapy of human colorectal tumor xenografts in athymic mice with clinically active drugs: 5-fluorouracil and 1-3-bis-(2-chloroethyl)-1-nitrosourea (BCNU). Comparison with doxorubicin derivatives: 4'-deoxydoxorubicin and 4'-O-methyldeoxydoxorubicin.

R. J. Hastings and L. M. Franks: Chromosome pattern, growth in agar and tumorigenicity in nude mice, of four human bladder carcinoma cell lines.

W. van Beek, J. Breckveldt, E. de Bakker, J. Hilgers, F. Hilgers and K. Nilsson: Early changes in the glycopeptides of human B lymphocytes after Epstein-Barr virus infection *in vitro*.

A. Fuse, T. Sato and T. Kuwata: Inhibitory effect of cholera toxin on human natural cell-mediated cytotoxicity and its augmentation by interferon.

Experimental Cancer

W. A. Suk, L. M. Ceccorulli and C. W. Long: Inhibition of endogenous murine retrovirus expression by L- β -3,4-dihydroxyphenylalanine (L-dopa) methyl ester.

C. H. Evans and J. A. DiPaolo: Lymphotoxin: An anticarcinogenic lymphokine as measured by inhibition of chemical carcinogen or ultra-violet irradiation induced transformation of Syrian hamster cells.

F. Wiener, M. Babonits, J. Spira, U. Bregula, G. Klein, R. M. Mervin, R. Asofsky and M. Lynes: Chromosome 15 trisomy in spontaneous and carcinogen-induced murine lymphomas of B cell origin.

D. L. Durden and J. A. Distasio: Characterization of the effects of asparaginase from *Escherichia coli* and a glutaminase-free asparaginase from *Vibrio succinogenes* on specific cell mediated cytotoxicity.

L. Bertolini, R. Revoltella, M. Bendinelli and C. Friend: Lack of correlation between *in vivo* and *in vitro* assays for the detection of virus released from clones of Friend erythroleukemia cells.

L. A. Kunkel and R. M. Welsh: Metabolic inhibitors render 'resistant' target cells sensitive to natural killer cell mediated lysis.

G. H. Smith, Y. A. Teramoto and D. Medina: Hormones, chemicals and proviral gene expression as contributing factors during mammary carcinogenesis in C₃H/StWi mice.

K. Chandrasekaran, D. J. Winterbourne, S. W. Luborsky and P. T. Mora: Surface proteins of simian virus 40 transformed cells.

R. S. Kerbel, J. C. Roder and H. F. Pross: Induction of a malignant lymphoreticular cell line which displays spontaneous killer cell activity.

K. B. Hellman and A. Hellman: Induction of type C retrovirus by the tumor promoter TPA.

S. A. Gaffar, K. D. Pant, D. Shochat, S. J. Bennett and D. M. Goldenberg: Experimental studies of tumor radioimmunodetection using antibody mixtures against carcinoembryonic antigen (CEA) and colon-specific antigen-p (CSAp).

S. K. Sundar, P. H. Levine, D. V. Ablashi, S. A. Leiseca, G. R. Armstrong, J. L. Cicmanec, G. A. Parker and M. Nonoyama: Epstein Barr virus induced malignant lymphoma in a white-lipped marmoset.

M. D. Daniel, R. Tamulevich, J. G. Bekesi, N. W. King, L. A. Falk, D. Silva and J. F. Holland: Selective antiviral activity of human interferons on primate oncogenic and neurotropic herpesviruses.
