### INTERNATIONAL CONFERENCE ON PROSTAGLANDINS AND CANCER 1981

Georgetown, Washington D.C., 31 August-2 September 1981

**Chairman:** TREVOR J. POWLES

**Organising Committee:** RICHARD BOCKMAN, KEN HONN, PETER RAMWELL

The aim of this meeting is to establish an interaction between prostaglandin scientists and cancer scientists in the areas of carcinogenesis, cell replication, differentiation and host tumour interaction, and to evaluate the therapeutic implications of P.G. manipulation on tumour growth and development in animals and humans.

Each session will have one Chairman involved in prostaglandins and another involved in cancer. There will be four or five lectures in each session which will be delivered by invited speakers having a broad experience in the relevant subject under discussion. There will also be poster sessions for proffered papers running at the same time. The general discussion of each session will include the relevant poster session and the whole conference will be published.

Proffered papers for the poster sessions are sought and should be sent by 1 June 1981, to:

CHRISTINE NUSSBAUM,  
Institute of Cancer Research,  
Haddow Laboratories,  
Clifton Avenue,  
Sutton, Surrey, SM2 5PX, U.K.

OR

YVONNE MADDOX,  
Department of Physiology and Biophysics,  
Georgetown University Medical Center,  
Washington DC 20007,  
U.S.A.

from whom further particulars may be obtained.
