International Journal of Cancer

April 1981

Human Cancer

N. Sabadie, H. B. Richter-Reichhelm, R. Saracci, U. Mohr and H. Bartsch: Inter-individual differences in oxidative benzo(a)pyrene metabolism by normal and tumorous surgical lung specimens from 105 lung cancer patients.

S. Stenman and A. Vaheri: Fibronectin in human solid tumors.

A. Mantovani, C. Sessa, G. Peri, P. Allavena, M. Introna, N. Polentarutti and C. Mangioni: Intraperitoneal administration of *Corynebacterium parvum* in patients with ascitic ovarian tumors resistant to chemotherapy: Effects on cytotoxicity of tumor-associated macrophages and NK cells.

J. T. Kemshead, F. Wash, J. Pritchard and M. Greaves: Monoclonal antibody to ganglioside GQ discriminates between haemopoietic cells and infiltrating neuroblastoma tumour cells in bone marrow.

A. B. Miller, T. Visentin and G. R. Howe: The effect of hysterectomies and screening on mortality from cancer of the uterus in Canada.

K. Sakamoto, M. Aiba, I. Katayama, J. L. Sullivan, R. E. Humphreys and D. T. Purtilo: Antibodies to Epstein-Barr virus-specific antigens in patients with hairy cell leukemia.

Experimental Cancer

P. Bogovski and S. Bogovski: *Special Report*. Animal species in which *N*-nitroso compounds induce cancer.

D. Graves and L. Weiss: Metastasis and the reticuloendothelial system. II. Effect of triamcinolone acetonide on organ retention of malignant cells in endotoxin-treated mice.

K. E. Hellström and I. Hellström: Cell-mediated suppression of tumor immunity has a nonspecific component. I. Evidence from transplantation tests.

I. Hellström and K. E. Hellström: Cell-mediated suppression of tumor immunity has a nonspecific component. II. Evidence from cell culture experiments.

R. A. C. P. Hekman, M. E. F. Prins, I. J. Bosveld and J. Trapman: The effect of high doses of poly (I) · poly (C) induced mouse L cell interferon on Rauscher leukemia virus induced erythroleukemia in BALB/c mice.

A. L. Reddy and P. J. Fialkow: Effect of solvents on methylcholanthrene-induced carcinogenesis in mice.

D. D. Isaak and J. Cerny: Target cell heterogeneity in murine leukemia virus infection. II. Demonstration of Friend leukemia virus-permissive and non-permissive subsets of splenic T cells.

I. S. Misko, R. G. Kane and J. H. Pope: Generation *in vitro* of EBV-induced specific cytotoxic T cells in autologous serum avoids complications due to self-preferred foetal calf serum-specific T cell cytotoxicity.

S. L. Johansson: Carcinogenicity of analgesics: Long term treatment of Sprague-Dawley rats with phenacetin, phenazone, caffeine and paracetamol (acetamidophen).

S. Gisselbrecht, P. J. Fischinger, J. H. Elder and J. P. Levy: Isolation of two novel envelope recombinant leukemogenic viruses from Moloney leukemia virus stocks.

K. Kubota and L. A. Manson: Characterization of "H-2K,D-like structures" on MM2 × mouse L cells hybrids. I. "H-2K,D-like" alloantigen encoded by the *D* region and/or to the right of the *D* region of the *H*-2 gene complex.

J. H. Ransom, C.-L. Schengrund and G. L. Bartlett: Solubilization and partial characterization of a tumor-rejection antigen from an ultraviolet light-induced murine tumor.
