

Announcement

INTERNATIONAL SYMPOSIUM ON THE SCIENTIFIC AND ADMINISTRATIVE ASPECTS OF ANTICANCER DRUG DEVELOPMENT

Granada, Spain, 25–26 March 1982

This is a symposium on drug development in the field of oncology. It will bring together representatives of research institutes, government agencies and pharmaceutical industry. The symposium will consist of original communications and overviews of scientific progress. The role of screening systems, biochemical and pharmaceutical considerations, drug toxicities, pharmacokinetics and other rationale of anticancer drug development will be discussed. The administrative regulations on new drugs as well as the scientific approach will be the subject of several round table discussions.

Organizing Committee: G. Atassi (Brussels), S. K. Carter (Palo Alto), H. Cortes Funes (Madrid), R. De Jager (Villejuif), S. Garattini (Milan), A. Goldin (Bethesda), K. Hellmann (London), P. Hilgard (Brussels), D. K. Hossfeld (Hamburg), W. F. Jungi (St. Gallen), H. O. Klein (Cologne), W. Mattsson (Malmoe), J. H. Mulder (Rijswijk).

For further information write to the Symposium Secretariat: N. de Castro, Ph.D., avenue du Pesage 129, Boîte 2, B-1050 Brussels, Belgium.
