Human Cancer

F. J. Benham, G. Balaban, D. Boccelli and H. Harris: Modulation of the expression of alkaline phosphatase genes in a human malignant cell line passaged through nude mice.

J.-F. Schnegg, N. de Tribolet, A.-C. Diserens, A. Martin-Achard and S. Carrel: Characterization of a rabbit anti-human malignant glioma antiserum.

A. Suzuki, R. A. Karol, S. K. Kundu and D. M. Marcus: Glycosphingolipids of K562 cells: A chemical and immunological analysis.

D. Liebermann, B. Hoffman-Liebermann and L. Sachs: Regulation of gene expression by tumor promoters. II. Control of cell shape and developmental programs for macrophages and granulocytes in human myeloid leukemic cells.

J. Rios-Dalenz, P. Correa and W. Haenszel: Morbidity from cancer in La Paz, Bolivia.

B. S. Wilson, K. Imai, P. G. Natali and S. Ferrone: Distribution and molecular characterization of a cell-surface and a cytoplasmic antigen detectable in human melanoma cells with monoclonal antibodies.

D. Gal, P. C. MacDonald, J. C. Porter and E. R. Simpson: Cholesterol metabolism in cancer cells in monolayer culture. III. Low-density lipoprotein metabolism.

N. Mueller-Lantzsch, B. Georg-Fries, H. Herbst, H. zur Hausen and D. G. Braun: Epstein-Barr virus strain and group specific antigenic determinants detected by monoclonal antibodies.

K. M. Tveit, Ø. Fodstad and A. Pihl: Cultivation of human melanomas in soft agar. Factors influencing plating efficiency and chemosensitivity.

R. Parshad, R. Gantt, K. K. Sanford, G. M. Jones and R. F. Camalier: Light-induced chromatid damage in human skin fibroblasts in culture in relation to their neoplastic potential.

B. Westermark, E. Larsson, U. Brunk, W. Lubitz and J. Mark: Establishment of attached and non-attached cell lines from an uncommon human glioma.

Experimental Cancer

D. Broudy-Boyé and I. Gresser: Reversibility of the transformed and neoplastic phenotype. I. Progressive reversion of the phenotype of X-ray transformed C3H/10T1/2 cells under prolonged treatment with interferon.

A. M. Iorio, M. Neri, P. Enrico, A. Goldin and E. Bonmassar: Combined effects of natural resistance and chemotherapy against a murine lymphoma in lethally-irradiated mice.

M. W. Harding and T.-J. Yang: Sequential changes in peripheral blood leukocyte adherence inhibition (LAI) reactivity during progressive growth and spontaneous regression of canine transmissible venereal sarcoma.

E. Garaci, G. Migliorati, T. Jezzi, A. Bartocci, L. Gioia, C. Rinaldi and E. Bonmassar: Impairment of *in vitro* generation of cytotoxic or T suppressor lymphocytes by Friend leukemia virus infection in mice.

S. J. Normann, M. Schardt and E. Sorkin: Biphasic depression of macrophage function after tumor transplantation.

J. Lotem and L. Sachs: *In vivo* inhibition of the development of myeloid leukemia by injection of macrophage and granulocyte inducing protein.

S. W. Ashurst and G. M. Cohen: The formation and persistence of benzo(a)pyrene metabolite-deoxyribonucleoside adducts in rat skin *in vivo*.
