International Journal of Cancer

January 1983

Human Cancer

L. Eliasson, B. Kallin, M. Patarroyo, G. Klein, F. Fujiki and T. Sugimura: Activation of the EBV-cycle and aggregation of human blood lymphocytes by the tumor promoters teleocidin, lyngbyatoxin A, aplysiatoxin and debromoaplysiatoxin.

A. Uchida and M. Micksche: Intrapleural administration of OK432 in cancer patients: activation of NK cells and reduction of suppressor cells.

H. K. B. Silver, R. N. Murray, A. J. Worth, F. A. Salinas and J. J. Spinelli: Prediction of malignant melanoma recurrence by serum *N*-acetylneuraminic acid.

S. E. Tonik, A. E. Ortmeyer, J. E. Shindelman and H. H. Sussman: Elevation of serum placental alkaline phosphatase levels in cigarette smokers.

N. Morinaga, S. Yonehara, Y. Tomita and T. Kuwata: Insensitivity to interferon of two subclones of human endometrial carcinoma cells, HEC-1.

A. Alam, A. J. Geddes and A. C. T. North: Methods and mechanisms for the development of MTX resistance in human lymphoid cells.

H. L. Gurtoo, C. J. Williams, K. Gottlieb, A. I. Mulhern, L. Caballes, J. B. Vaught, A. J. Marinello and S. K. Bansal: Population distribution of placental benzo(a)pyrene metabolism in smokers.

J. Gerdes, U. Schwab, H. Lemke and H. Stein: Production of a mouse monoclonal antibody reactive with a human nuclear antigen associated with cell proliferation.

Experimental Cancer

R. T. Prehn and C. A. Karcher: Splenic variations affecting sarcogenesis among mice of an inbred strain.

J.-F. Jeannin, N.-O. Olsson and F. Martin: Liposome induction or enhancement of macrophage-mediated cancer cell lysis.

D. R. Johnson, L. G. Wolfe, G. Levan, G. Klein, I. Ernberg and P. Åman: Epstein-Barr virus (EBV) induced lymphoproliferative disease in cotton-topped marmosets.

P. Ekblom, I. Thesleff, V.-P. Lehto and I. Virtanen: Distribution of the transferrin receptor in normal human fibroblasts and fibrosarcoma cells.

D. A. Chow, M. Ray and A. H. Greenberg: *In vivo* generation and selection of variants with altered sensitivity to natural resistance (NR): a model of tumor progression.

G. Migliorati, T. Jezzi, L. Frati, E. Bonmassar, G. B. Rossi, E. Garaci and C. Riccardi: Modulation of natural killer (NK) cell activity during FLV-P virus infection of mice.

J. L. Maryanski, M. Marchand, C. Uytenhove and T. Boon: Immunogenic variants obtained by mutagenesis of mouse mastocytoma P815. VI. Occasional escape from host rejection due to antigen-loss secondary variants.

R. Ehrlich, M. Efrati, E. Malatzky, L. Shochat, A. B. Eyal and I. P. Witz: Natural host defence during oncogenesis. NK activity and dimethylbenzanthracene carcinogenesis.

B. Bottazzi, N. Polentarutti, A. Balsari, D. Boraschi, P. Chezzi, M. Salmona and A. Mantovani: Chemotactic activity for mononuclear phagocytes of culture supernatants from murine and human tumor cells: evidence for a role in the regulation of the macrophage content of neoplastic tissues.

A. L. Reddy and P. J. Fialkow: Clonal development of lymphomas induced by Rauscher leukemia virus.
