International Journal of Cancer

March 1983

Human Cancer

G. Bauer: Induction of Epstein-Barr virus early antigens by corticosteroids: inhibition by TPA and retinoic acid.

H. Burchichter, W. Heit, M. Schaadt, H. Kirchner and V. Diehl: Production of colony stimulating factors by Hodgkin cell lines.

H. F. Stich and M. P. Rosin: Quantitating the synergistic effect of smoking and alcohol consumption with the micronucleus test on human buccal mucosa cells.

R. V. McIntosh, B. B. Cohen, C. M. Steel, H. Read, M. Moxley and H. J. Evans: Evidence for involvement of the immunoglobulin heavy chain gene locus in the 8:14 translocation of human B lymphomas.

R. G. Goya and Y. E. Sosa: Changes in chromatin composition associated to hormone-dependent mammary tumor regression.

S. Paulie, Y. Hansson, M.-L. Lundblad and P. Perlmann: Lectins as probes for identification of tumor associated antigens on urothelial and colonic carcinoma cell lines.

J. R. Ortaldo, A. Mantovani, D. Hobbs, M. Rubinstein, S. Petska and R. B. Herberman: Effects of several species of human leukocyte interferon on cytotoxic activity of NK cells and monocytes.

Experimental Cancer

J. M. Heard, S. Fichelson, J. Choppin and B. Varet: Autocrine function of murine F-MuLV induced myeloblastic cell lines.

S. A. Stohlman, P. R. Brayton, R. C. Harmon, D. Stevenson, R. G. Ganges and G. K. Matsushima: 'Natural killer cell activity during mouse hepatitis virus infection: response in the absence of interferon.

C. Riccardi, P. Allavena, J. Ortaldo and R. B. Herberman: Cloned lines of SJL/J spleen cells with cytotoxic reactivity.

V. Rotter, H. Abutbul and D. Wolf: The presence of p53 transformation-related protein in Ab-MuLV transformed cells is required for their development into lethal tumors in mice.

D. K. Sinha, J. E. Pazik and T. L. Dao: Progression of rat mammary development with age and its relationship to carcinogenesis by a chemical carcinogen.

A. Gazit, A. Yaniv, A. Ilani, M. Ianculescu, K. Perk and A. Zimber: Genetic control of the organ specificity of lymphoproliferative disease virus (LPDV) of turkeys.

M. K. Dabbous, M. El-Torky, L. Haney, S. B. Brinkley and N. Sobhy: Collagenase activity in rabbit carcinoma: cell source and cell interactions.

I. Kawase, D. L. Urdal, W. Newman and C. S. Henney: The mechanism of augmentation of natural killer cell activity by syngeneic tumor cells: role of macrophage derived factor in NK boosting.

L. Schaffar-Deshayes, J. Choppin and J. P. Levy: 'Detection of H-2D^d and H-2K^d molecules in purified Rauscher leukemia virus.

M. J. Brunda, R. H. Wiltout, H. T. Holden and L. Varesio: Selective inhibition by monosaccharides of tumor cell cytotoxicity mediated by mouse macrophages, macrophage-like cell lines, and natural killer cells.

M. Bruley-Rosset and H. Rappaport: Natural killer cell activity and spontaneous development of lymphoma. Effects of single and multiple injections of interferon into young and aged C57BL/6 mice.
