Human Cancer

D. Stramignoni, R. Bowen, B. F. Atkinson and J. Schlom: Differential reactivity of monoclonal antibodies with human colon adenocarcinomas and adenomas.

P. O. Livingston, H. Takeyama, M. S. Pollack, A. N. Houghton, A. Albino, H. F. Oettgen and L. J. Old: Serological responses of melanoma patients to vaccines derived from allogeneic cultured melanoma cells.

Z. Sizhong, Z. Yi and G. Xiukung: Cytogenetic studies on an epithelial cell line derived from poorly differentiated nasopharyngeal carcinoma.

I. Hellström, J. P. Brown and K. E. Hellström: Melanoma-associated antigen p97 continues to be expressed after prolonged exposure of cells to specific antibody.

S. Biran, A. T. Horowitz, Z. Fuks and I. Vlodavsky: High density lipoprotein and extracellular matrix promotes growth and plating efficiency of normal human mammary epithelial cells in serum free medium.

G. P. Hemstreet, III, S. S. West, W. L. Weems, C. K. Echols, S. McFarland, J. Lewin and G. Lindseth: Quantitative fluorescence measurements of AO-stained normal and malignant bladder cells.

P. M. Allan, J. A. Garson, E. I. Harper, U. Asser, H. B. Coakham, B. Brownell and J. T. Kemshead: Biological characterisation and clinical applications of a monoclonal antibody recognising an antigen restricted to neuroectodermal tissues.

K. Pollow, A. Schmidt-Mathiesen, G. Hoffmann, G. Schweikhart, R. Kreienberg, B. Manz and H.-J. Grill: ^3H -estradiol and ^3H -R5020 binding in cytosols of normal and neoplastic human ovarian tissue.

J. Carlsson, K. Nilsson, B. Westermarck, J. Pontén, C. Sundström, E. Larsson, J. Bergh, S. Pählman, C. Busch and V. P. Collins: Formation and growth of multicellular spheroids of human origin.

Experimental Cancer

G. I. Deichman, L. M. Kashkina, T. E. Kluchareva, E. L. Vendrov and V. A. Matveeva: Inhibition of experimental and spontaneous lung metastases of highly-metastatic Syrian hamster sarcoma cells by non-activated bone marrow and peritoneal exudate cells.

M. C. Garnett, M. J. Embleton, E. Jacobs and R. W. Baldwin: Preparation and properties of a drug-carrier-antibody conjugate showing selective antibody-directed cytotoxicity *in vitro*.

K. Kubota and L. A. Manson: Characterization of "H-2K_D-like structures" on MM2 $\times$ mouse L cell hybrids. II. An "H-2K_D-like" structure on C3H-derived tumor.

A. Vlug, M. Zijlstra, R. E. Y. de Goede, W. G. Hesselink, H. J. Schoenmakers and C. J. M. Melief: H-2 control of the cytotoxic antibody response against a newly defined MuLV-related cell-surface antigen: G_(B10.A).

J. M. McCarty and C. K. Grant: Cellular immune response in the blood of cats is restricted to autochthonous feline sarcoma virus-transformed cells.

R. R. Hook, Jr., C. V. Hamby, L. E. Millikan, J. Berkelhammer, H. F. Stills, Jr. and R. W. Oxenhandler: Cell-mediated immune reactivity of Sinclair melanoma swine to 3M KCl extracts of swine and human melanoma.

F. Belardelli, I. Gresser, C. Maury, P. Duvillard, M. Prade and M.-T. Maunoury: Antitumor effects of interferon in mice injected with interferon-sensitive and interferon-resistant Friend leukemia cells. III. Inhibition of growth and necrosis of tumors implanted subcutaneously.

F. Gilbert, G. Balaban, D. Brangman, N. Herrmann and A. Lister: Homogeneously staining regions and tumorigenicity.

T. M. Rose and R. Weil: Characterization of the surface proteins of SV40-transformed mouse and human cells: absence of SV40-specific proteins.
