

Announcements

VIIIth MEETING OF THE EUROPEAN ASSOCIATION FOR CANCER RESEARCH (EACR)

13-15 May 1985, Bratislava, Czechoslovakia

Sponsored by the Czechoslovak Cancer Society.

Themes of major symposia:

1. Genetic and epigenetic control of cell transformation.
2. Applied aspects of tumour immunology.

In addition to the symposia which will be held in plenary sessions, seminars on specific topics are to be arranged. Proffered papers will be presented in concurrent sessions. *Papers related to the main themes as well as free communications related to any other topic relevant to cancer research may be submitted.* Proffered papers are preferably to be presented as posters, but sessions for short oral presentations (10 min + 5 min discussion) will be organized. Abstracts of proffered papers will be reviewed and those accepted will be published in the *European Journal of Cancer and Clinical Oncology*.

For further details, and documents for registration, accommodation and abstracts, please apply to:

CLONAL EVOLUTION OF TUMOURS

BACR/RSM Winter Meeting, 22/23 November 1984

Forum Hotel, Cromwell Road, London SW7, U.K.

9.00	Chairman's opening remarks	P. Alexander (Southampton)
9.15	Analysis of cell lineage in haematopoietic malignancy	P. Fialkow (Seattle)
10.10	Analysis of the clonality of human ovarian carcinomas <i>in vitro</i>	R. Buick (Toronto)
10.55	Coffee	
11.20	Germ cell tumours of the testicle as a model of clonal evolution in man	R. T. Oliver (St. Paul's Hosp.)
11.50	Interlude	

- | | | |
|-------|---|-------------------------------|
| 12.00 | Gordon Hamilton-Fairley Memorial Lecture:
Genetics of drug resistance of cancer cells | R. Schimke
(Stanford) |
| 1.00 | <i>Lunch</i> | |
| 2.15 | Experimental bladder tumours as a model for understanding
the stepwise development of malignancy | M. Hicks
(Middx. HMS) |
| 2.45 | <i>In vivo</i> skin carcinogenesis as a model | A. Balmain
(Beatson) |
| 3.15 | <i>Tea</i> | |
| 3.40 | Clonal heterogeneity within mouse mammary tumours | G Heppner
(Detroit) |
| 4.20 | Biological determination of homing patterns of metastases | I. Hart
(ICRF) |
| 5.00 | Oncogene interaction in the development of malignancy | R. Newbold
(Pollards Wood) |

Titles are only provisional. The Symposium is on November 22; proffered papers and Alexander Haddow Lecture (Professor Veronesi) are on November 23.

INVITATION FOR FELLOWSHIPS

Applications are invited for fellowships from FOCA (Fondation pour la Chimiotherapie Anticancereuse). These fellowships are destined exclusively to medical oncologists from the United States, board-certified in oncology or equivalent training, wanting to work for 1 yr or longer as staff members in the Department of Medicine and Clinical Investigation of the Institut Jules Bordet, Cancer Center of the University of Brussels. The chief of this department is Dr. Jean Klastersky. Stipend: two million Belgian francs per year (U.S.\$35,000-45,000, depending on the exchange rate).

For information and applications write to:

Professor Henri Tagnon,
President of FOCA,
Institut Jules Bordet,
1, rue Héger-Bordet,
B-1000 Brussels, Belgium
Tel: 02/538-27-66; Telex 22773
