Entering the X century of the University of Bologna

### INTERNATIONAL CONGRESS ON CANCER METASTASIS BIOLOGICAL AND BIOCHEMICAL MECHANISMS AND CLINICAL ASPECTS

13-15 May 1987

Bologna, Italy

Sponsored by  
University of Bologna  
Menarini International Foundation

Under the auspices of  
Metastasis Research Society

The meeting will cover the most recent biological, biochemical and clinical aspects of cancer metastases. The programme will include special lectures by invited speakers and poster sessions.

#### **Scientific programme**

The topics covered by lectures, roundtables and poster sessions will be tentatively organized into three major areas of interest:

#### *Biological aspects*

Cellular diversity, motility, adhesion, fusion. Angiogenesis, chemiotaxis, immune interactions.

#### *Biochemical aspects*

Oncogenes, surface carbohydrates and glycoproteins, extracellular matrix, cellular proteases, surface receptors, growth factors.
