

35TH MEETING OF THE EUROPEAN TISSUE CULTURE SOCIETY (ETCS)

20-24 SEPTEMBER 1987, ATHENS, GREECE

SCIENTIFIC PROGRAMME

**Plenary lectures - Symposia -
Workshops - Poster Sessions**

The main topics will include:

1. Cell interaction and epithelial cell differentiation.
2. Regulation of proliferation and differentiation of hemopoietic cells by growth factors.
3. Gene transfer and biotechnology applications.
4. Markers of cell lineage and transformation.
5. Production and applications of monoclonal antibodies.
6. Bone, cartilage and muscle cell culture.
7. Hormones, neurotransmitters and signal transduction.
8. Oncogene products and their relevance to cell transformation.
9. Cell cycle regulation.
10. Oncogenes, growth factors and their receptors.
11. Development and evaluation of new drugs by tissue culture.

The deadline for Abstract Receipt is May 31, 1987.

CALL FOR PAPERS

Contributions in tissue culture and the related areas of molecular and cellular biology, biochemistry, genetics and microbiology are welcome from all potential contributors.

Abstracts must be prepared camera-ready on the appropriate forms.

Contributions will be reviewed by the Scientific Committee and selected for presentation as oral (10 min + 5 min discussion) or poster (details in the final program) communications. All accepted contributions will be included in the Abstract book, available at the Meeting.

Information can be requested from:

Dr. D.A. Spandidos, Chairman, Organizing Committee, 35th Meeting of ETCS, Hellenic Institute Pasteur, 127 Vas. Sofias Ave., Athens 115 21, Greece.
