

INDEX

The Belgian, French, German, Greek, Italian, Netherlands, Portuguese and Spanish Chemical Societies, and the Hungarian Academy of Sciences together with the Hungarian Chemical Society have taken a significant step into the future by merging their traditional journals to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Each one of the founding society owned journals brings decades of past excellence to this merger as a guarantee for future excellence. Three further European societies, those of Austria, the Czech Republic, and Sweden, are associate members.
